SORALUCE

SORALUCE SUMMIT PORTAL SERIES

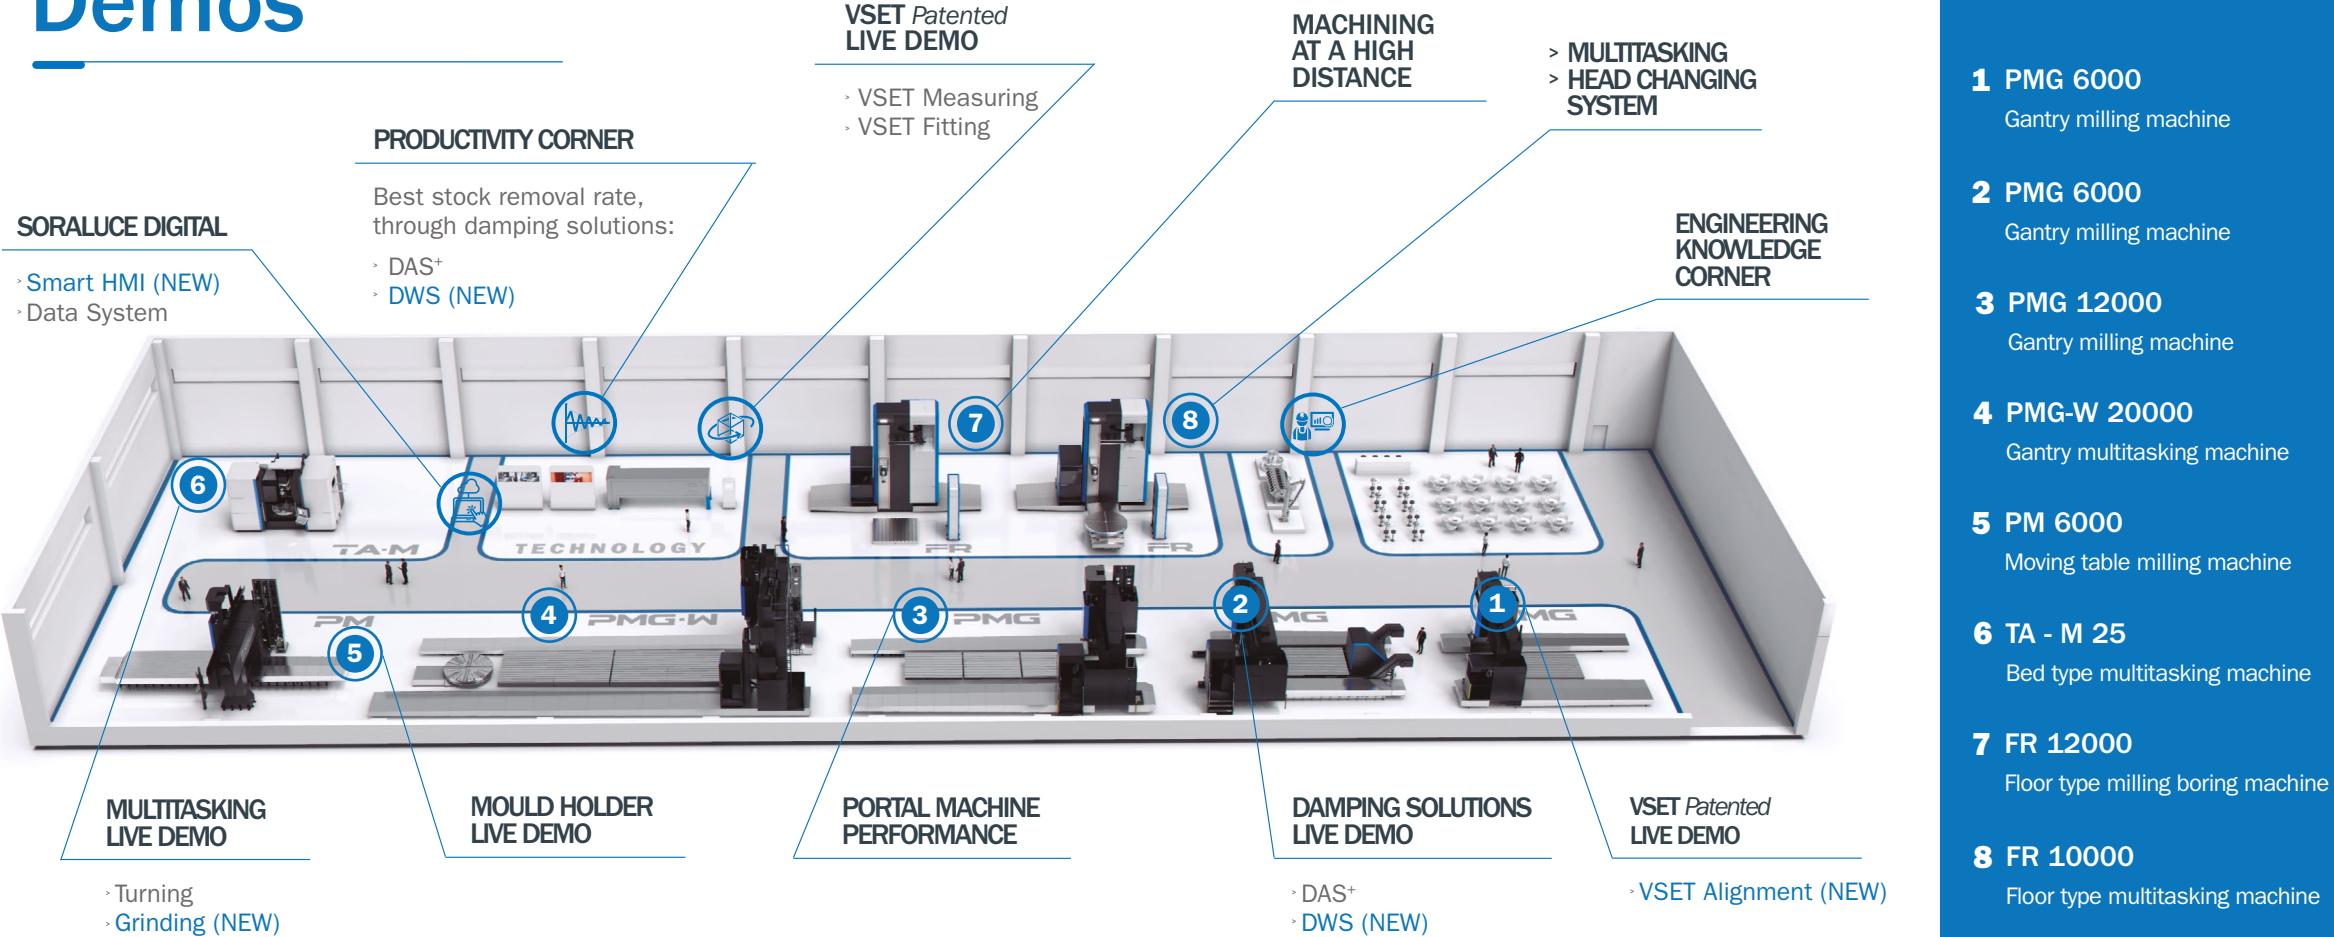

**SORALUCE is pleased to invite you to the
SORALUCE SUMMIT 2019 | PORTAL SERIES**

The event will be held at the new PORTAL FACTORY, the most comprehensive and advanced manufacturing centre for large-scale, high power portal machines.

The new PORTAL SERIES to be unveiled is part of SORALUCE's strategic commitment. Endorsed by its knowledge and experience in milling and turning technology as well as its position as technological leader in the sector, SORALUCE will showcase a complete range of portal machines, including mobile table milling machines, gantry milling machines, multitasking machines, with fixed and moving cross beams, with a full range of heads and other options.

Come and experience live the new SORALUCE PORTAL SERIES!

Tour & Live Demos

PRODUCTIVITY CORNER

Best stock removal rate, through damping solutions:

- › DAS⁺
- › DWS (NEW)

SORALUCE DIGITAL

- › Smart HMI (NEW)
- › Data System

VSET Patented LIVE DEMO

- › VSET Measuring
- › VSET Fitting

MACHINING AT A HIGH DISTANCE

- › MULTITASKING
- › HEAD CHANGING SYSTEM

ENGINEERING KNOWLEDGE CORNER

MULTITASKING LIVE DEMO

- › Turning
- › Grinding (NEW)

MOULD HOLDER LIVE DEMO

PORTAL MACHINE PERFORMANCE

DAMPING SOLUTIONS LIVE DEMO

- › DAS⁺
- › DWS (NEW)

VSET Patented LIVE DEMO

- › VSET Alignment (NEW)

1 PMG 6000

Gantry milling machine

2 PMG 6000

Gantry milling machine

3 PMG 12000

Gantry milling machine

4 PMG-W 20000

Gantry multitasking machine

5 PM 6000

Moving table milling machine

6 TA - M 25

Bed type multitasking machine

7 FR 12000

Floor type milling boring machine

8 FR 10000

Floor type multitasking machine

News

1.

World premiere SORALUCE Portal Series

Full range of portal machines with several traverses and configurations.

2.

The new Portal Factory

The most complete and advanced manufacturing centres for large-scale, high power portal machines.

3.

Engineering knowledge

Machining engineering aimed at improving cycle time, productivity and profitability, responding to the most demanding machining challenges.

4.

All in one multitasking

High performance capacity in milling, turning and grinding (NEW) in a single set-up.

5.

Applied technology

- > High stock removal rate through smart damping solutions: DAS⁺, DWS
- > A world of applications and new functions through new interface Smart HMI
- > Simplified component set-up through SORALUCE VSET
